BUSINESS DEVELOPMENT & OPERATIONS

Hoo Jin Hern, *Bryan*

E bryanhoo10@gmail.com **T** +60 12-221 3106 **L** Shah Alam, Selangor

PROFILE

Business development and operations professional with 7+ years across chemical engineering, precision manufacturing, e-commerce entrepreneurship and corporate strategy at a Bursa-listed steel group. Trained under the Daikin Production System, a Toyota Production System-derived framework, which grounds my approach in root-cause discipline, waste elimination and continuous improvement. Today I work directly with the Executive Director across the group's businesses, leading digitalization and personally designing and building the systems that run day-to-day operations. Fluent in five languages and equally effective in the boardroom, on the factory floor and inside the data.

SYSTEMS BUILT

Trading ERP — FLAGSHIP

End-to-end trading platform covering quotation, purchasing, delivery tracking and invoicing.

Meeting & Action Register

Bilingual English and Chinese minutes, task ownership and follow-up tracking for top management.

Pricing Intelligence Dashboard

Volume-weighted selling price monitoring across business units with AI-generated reports.

Inventory Reorder Analyzer

Automated monthly reorder analysis consolidating multiple operational data sources.

EXPERIENCE

Business Development & Operations Manager

January 2024 – Present

Hiap Teck Venture Berhad (Bursa: 5072) · Steel Manufacturing, Trading & Industrial Materials

Working directly alongside the Executive Director on group strategy, operations and digitalization across the group's manufacturing, trading and industrial materials businesses.

- **Leading the group's multi-site Weighbridge Management System rollout** from requirements and vendor selection through deployment, now in the final stage before go-live.
- **Designed and built a trading ERP from the ground up** for the group's pipe trading and fire protection business, covering quotation, purchasing, delivery tracking and invoicing.
- **Designed and built in-house management tools**, including a bilingual meeting and action-tracking system for top management, a pricing intelligence dashboard and automated inventory reorder analysis.
- Key stakeholder in a vendor-built AI production planning system, shaping requirements from the operations perspective.

KEY STRENGTHS

Systems builder

Designs and builds in-house tools, from a trading ERP to management reporting and action tracking, instead of waiting on vendors.

Lean operations foundation

Trained in the Daikin Production System. Kaizen, Just-in-Time, 5-Why and OEE shape every process improvement.

End-to-end digital delivery

Takes projects from requirements and vendor selection through to go-live, including a multi-site weighbridge deployment.

Commercial ownership

Co-founded and ran an e-commerce business with full profit and loss ownership across five sales platforms.

Executive-level trust

Works directly with the Executive Director and prepares board and government-facing materials.

Multilingual and cross-border

Fluent in five languages. Hosts international delegations and conducts overseas supplier visits and audits.

LANGUAGES

English	Native
Mandarin	Native
Bahasa Malaysia	Professional
Hakka	Working
Cantonese	Working

EXPERIENCE, CONTINUED

Business Development & Operations Manager

continued

Hiap Teck Venture Berhad (Bursa: 5072)

- Oversee operations of the group's trading and fire protection distribution arm, including regulatory product certification, supplier development and delivery logistics.
- Evaluate new ventures and expansion opportunities, including new manufacturing capacity, AI infrastructure investment and new product markets.
- Prepare board and government-facing materials: bilingual strategy decks, industry policy submissions, and tender and feasibility studies.
- Represent the group with international partners, hosting industry delegations and conducting overseas supplier visits and factory audits.

Co-Founder & Business Operations Manager

June 2021 – December 2023

Mojomore Sdn Bhd · E-Commerce & Consumer Goods

- **Built the business's entire operations infrastructure from scratch**: inventory management, reorder triggers, demand forecasting and financial tracking systems.
- **Held full ownership of the business Profit and Loss**, covering revenue tracking, cost control, margin management and cash flow, and made all key financial decisions.
- Ran the e-commerce operation across Shopify, Shopee, Lazada, TikTok Shop and PG Mall, handling listings, fulfilment and account management.
- Managed digital advertising across Meta, Shopee, Lazada and Google, using data analytics to optimise spend and return on investment.

Production Engineer

November 2020 – June 2021

Mewah Dairies Sdn Bhd · Fast-Moving Consumer Goods / Food Manufacturing

- **Kick-started and led the Overall Equipment Effectiveness initiative**, designing an Excel-based efficiency dashboard that gave management structured visibility into line performance and downtime for the first time.
- Led end-to-end setup and commissioning of a new production line, coordinating vendors, engineering teams and safety compliance sign-off.
- Managed the frontline production team and daily operations to consistent output and quality targets.

Production Engineer

March 2019 – November 2020

Daikin Malaysia Sdn Bhd · Air Conditioning Manufacturing

- **Trained and operated under the Daikin Production System**, building deep foundations in Just-in-Time, MUDA waste elimination, 5-Why root cause analysis, Plan-Do-Check-Act and Kaizen.
- Led Kaizen improvement projects on assembly lines, delivering measurable gains in throughput, cycle time and defect rate.
- Managed production scheduling and cross-departmental coordination to ensure on-time delivery with minimal work-in-progress inventory.
- Applied 5-Why, Ishikawa Fishbone and Plan-Do-Check-Act to resolve quality non-conformances systematically.

COMPETENCIES

Digitalization & Data

Systems Design · ERP Development · Dashboard Development · Workflow Automation · AI-Assisted Development · Data Analytics · Excel (Advanced)

Operations

Lean / Kaizen · Daikin Production System · OEE · Process Improvement · Supply Chain · Supplier Audits

Business & Strategy

Business Development · Strategic Planning · Project Management · Stakeholder Management · Feasibility Studies · P&L Management

Digital Commerce

Shopify · Shopee / Lazada · TikTok Shop · Meta & Google Ads

Enterprise Tools

SAP Business One · AutoCount · Microsoft 365

EDUCATION

Bachelor of Chemical Engineering (Hons.)

Curtin University

CGPA 3.25 · 2019

SPM – Science Stream

SMK Seafield

5A+, 3A, 1A-, 1B
